

SILVER OAK

SERVICES PARTNERS

SILVER OAK
SERVICES PARTNERS

INVESTMENT STRATEGY

Silver Oak believes that every business is unique, with its own distinct challenges and issues, and that each investment opportunity requires a flexible partner with real-world experience. The Silver Oak team has a proven track record of repeatedly helping service businesses expand organically, drive operational improvements and successfully grow through acquisition. Our goal is to identify great businesses and partner with management to help them maximize the company's potential and meet their goals, not just our own.

Silver Oak offers the following advantages to owners and management:

INDUSTRY EXPERTISE

Rather than being a generalist investor, Silver Oak focuses on a few defined segments of the services industry, including business services, healthcare services and consumer services. As a focused investor, we are able to leverage a deep understanding of the unique competitive, business and financial issues facing service companies and provide valuable assistance to our management partners.

MANAGEMENT TEAM FOCUS

Silver Oak believes that in order to build industry leading companies, management teams and investors must actively work together to drive value creation. We welcome significant equity participation by our management partners and always offer management an opportunity to earn additional equity upside. As a partner to management, Silver Oak is able to take a long-term view of our businesses, which helps management make necessary investments in personnel, growth initiatives, operational improvements and acquisitions. While we are active as Board members and assist with strategic decisions, our management partners control the day-to-day operations of our portfolio companies.

TIMELINESS OF EXECUTION

Silver Oak's deep services industry expertise allows us to quickly evaluate potential investment opportunities. Our team works together closely throughout the investment evaluation process. This allows Silver Oak to make important decisions quickly, while bypassing the bureaucratic approval processes that can prohibit a deal from occurring.

FLEXIBILITY

Silver Oak's team has been involved in excess of ninety services platform and follow-on investments. This experience allows us to be creative in how each deal is uniquely structured and allows us to solve our management partners' needs while serving our mutual goal of building industry leading service businesses.

SERVICES EXECUTIVES PARTNERS

Silver Oak offers its portfolio companies the opportunity to work with our Services Executive Partners ("SEPs"). The SEPs are highly successful current and former executives of Services businesses and have long-standing relationships with our team. The SEPs are important resources for our management teams and often support our portfolio companies as board members, interim managers and outside advisors.

SILVER OAK
SERVICES PARTNERS

INVESTMENT PHILOSOPHY

Silver Oak's investment strategy is consistent with the approach the Silver Oak team has successfully employed over their 75-plus years of collective private equity experience. Key elements of the strategy include: (i) investing in lower middle market business, consumer and healthcare services businesses that meet Silver Oak's criteria, (ii) deploying a research-driven sourcing model which capitalizes on Silver Oak's research capabilities and broad relationship networks to generate attractive deal flow, (iii) partnering with proven Services industry executives, (iv) performing rigorous due diligence and strategic planning prior to making an investment, (v) utilizing a conservative approach to leverage and pricing, (vi) working with management teams through active ownership to drive value creation and (vii) positioning portfolio companies for sale to a strategic or larger financial buyer over a three to six-year period.

SERVICES INDUSTRY FOCUS

Capitalize on the significant benefits of specialization in a large, diverse and highly attractive economic sector for private equity investment.

INVESTMENT CRITERIA

Seek control positions in Services businesses with less than \$150 million in enterprise value. Evaluate opportunities against a balanced scorecard of industry, business and financial considerations.

VALUE CREATION

As investors, not operators, we seek to partner with strong management teams. Our philosophy is active involvement at the board level including assisting our management teams with strategic direction, metric-driven reporting and creating detailed 100-day operating and five year financial plans pre-closing to ensure operating accountability and momentum.

EXIT STRATEGIES

Continually evaluate exit options, via proprietary research. Build larger scale businesses that are attractive to strategic and financial buyers.

SILVER OAK
SERVICES PARTNERS

INVESTMENT CRITERIA

TRANSACTION TYPES

Control investments in leveraged acquisition, recapitalization, build-up and growth transactions.

INVESTMENT SIZE

Typically between \$10 million and \$30 million in each portfolio company with the ability to invest additional equity capital via co-investment from our limited partners.

INDUSTRIES

Business Services, Healthcare Services, Consumer Services.

COMPANY SIZE

- Revenue: between \$15 to 150 million
- EBITDA: \$4 to \$20 million (no minimum for add-on acquisitions)

BUSINESS AND INDUSTRY ATTRIBUTES

- Proven business model
- Strong competitive position
- Favorable growth prospects
- Strong value proposition
- Significant recurring revenue base
- Strong margins and free cash flow generation
- Clear value creation opportunities
- Reasonable valuations

NOT CONSIDERED

Start-ups, project-based revenue models, retail, restaurants.

REFERRALS

Silver Oak welcomes investment proposals and referrals from business owners, advisors and intermediaries. We will pay reasonable referral fees provided such fees are pre-negotiated and agreed to in writing.

SILVER OAK
SERVICES PARTNERS
